CAREER OBJECTIVE

Front-End Developer with proven experience at Zillow and Codup helping companies create and maintain a better code base for re-usability. Capable of continuous learning from senior developers while still nurturing junior developers. Experience in driving projects forward as the development team leader, facilitating projects from concept to launch. Passionate about learning and development with a desire to apply skills on a larger development team at Redfin. Eager to tackle more complex problems and continue to find ways to maximize-user efficiency.

WORK EXPERIENCE

Front-End Developer
Codup
Nov. 2022 to till present Remote

- Translate design mockups and wireframes into responsive, high-quality web interfaces using HTML, CSS, and JavaScript.
- Collaborate with designers and back-end developers to ensure seamless integration of front-end and back-end components.
- Optimize websites and web applications for performance, speed, and cross-browser compatibility.
- Implement and maintain code standards and best practices to ensure maintainable and scalable code.
- Stay updated with the latest front-end development trends and technologies to recommend improvements and drive innovation.

Front-End Developer
Zillow
June 2022 - May 2023 Remote

- Developed real estate valuation, analytics,and platform technology solutions as part of a 5-person team.
- Designed and developed Zestimate, which manages a volume of 600k+ valuations per month.
- Reduced average valuation review time by 46%, and saved service providers an average of 84% due to click-fee reductions.
- Rebuilt 4-year-old SaaS application in React 15 with full user experience redesign to release a beta MVP in 8 months.
- Integrated an automated property valuation model.
- Created non-technical descriptions of operations and workflow to enable non-coding team to function with minimal interruption.
